- Rule Changes and Updates: Changes to the fixture scheduling process or rules must be reviewed and approved by the Fixture Scheduling Committee before implementation.

3 Rule 3: Player Eligibility

- Rule Description: The eligibility of players participating in the league must be carefully determined and monitored.
- Rule Statement: All players must meet the eligibility criteria set by the league to participate in matches. This includes age restrictions, registration requirements, and any other criteria specified by the league administrators.
- Rule Priority: High

- Rule Source: League Regulations
- Rule Owner: League Administrators
- Rule Dependencies: Player registrations, age verification
- Rule Compliance: Clubs must ensure that all players on their team meet the eligibility criteria and provide necessary documentation for age verification and registration. The league administrators will periodically review player eligibility.
- Rule Exceptions: In exceptional circumstances, the league administrators may consider granting exemptions to certain players, subject to approval.
- Rule Changes and Updates: Any changes to the player eligibility criteria or registration requirements will be communicated to clubs in advance of the next season or competition.

4 Conclusion

In conclusion, the Business Rules Document is a crucial component of the Football League Management App, providing a clear and comprehensive set of regulations that govern various aspects of the league management process. It serves as a reference for stakeholders, ensuring fair competition, transparent financial management, and effective communication within the league. By documenting these rules, we have established a solid foundation for the app's functionality, promoting fairness, accuracy, and efficiency. The Business Rules Document will guide the development and implementation of the app, shaping its design and ensuring compliance with the established rules. Overall, it plays a vital role in facilitating efficient league management and enhancing the user experience for all stakeholders involved.
